

Attention: TSG-C participants:

Please find below the details you will need for this week's TSG-C teleconference meetings.

Dates and Times of calls:

Tuesday, September 18 2001 - 7:00pm CENTRAL US DAYLIGHT TIME

Thursday, September 20 2001 - 7:00pm CENTRAL US DAYLIGHT TIME

Duration of call:

3 hours

Call in Number:

+1 913 981 5572

Confirmation number:

707168 - You may need to key this number into your keypad to access the call

Special Instructions:

Due to the large number of participants expected on the call, this meeting will be more structured than the face-to-face meetings TSG-C usually holds. Please note the following:

- The call will be 'chaperoned' by an operator from our teleconferencing company. This operator will be on the line for the duration of the call and will assist in queuing those who wish to speak.

- The call will be "operator assisted". As participants call in they will be asked to give their name and company name to the operator. The operator will gather this information.

- The lines of all participants calling in on this broadcast number will be CLOSED to avoid background noise, impromptu muting etc... Participants on the call will be instructed to press *1 on their phones if they wish to speak. The operator will alert the leadership on the call of who is in the queue to speak.

- The call WILL NOT BE RECORDED

If you have questions about the instructions above or need additional information, please contact Henry Cuschieri at hcuschie@tia.eia.org or me at vbosserm@tia.eia.org.

Enjoy your day,

Victoria Bosserman

3GPP2 Coordinator
