

Terms of Reference for the workshop

The workshop is intended to promote work on harmonization of the 3GPP and 3GPP2 IP core networks. This includes the analysis of the differences and commonalities between the current 3GPP and 3GPP2 IP multimedia services, architectures, and protocols. Requirements for long term IP network evolution will also be considered. The workshop will attempt to identify areas ripe for further harmonization work. The output of this workshop is may be used by the 3GPP or 3GPP2 to guide future work but is not binding on either organization.

Agenda

- 1. Call to Order & Opening Remarks.....
- 2. Attendance Registration.....
- 3. Distribution & Numbering of Contributions
- 4. Assignment of Contributions to Agenda Items.....
- 5. Adoption of Agenda
- 6. Day 1 (Comparison Analysis)
 - Terms/Definitions
 - Architecture Comparison
 - IMS/MMD Review
 - Overview of 3GPP and 3GPP2 Work Status
 - Inter-Operability
 - Roaming
- 7. Day 2 – Morning (Future Evolution)
 - Requirements for future work/enhancements
 - Merging of 3GPP/3GPP2 Architectures
 - Evolution Strategy
- 8. Day 2 (Afternoon)
 - Conclusions
 - Recommendations
 - 3GPP/3GPP2 Feedback
 - Future Meetings
- 9. Adjournment
