

Dear 3GPP2 Members

This note is a follow-up to my message from yesterday. I would like to first thank all of you who provided me feedback regarding company and personal concerns regarding travel next week. In many cases circumstances arising from company policies regarding travel have weighted into the decision making process. More so at this time our priorities must first consider the personal safety of all members and their families.

With that, all face-to-face meeting in Kyoto next week are cancelled.

A meeting was held this morning between myself and the TSG chairs. In lieu of face-to-face meetings, I have asked the chairs to review their agenda and their associated working group and sub working group agenda so that items not requiring face-to-face discussion may be facilitated by electronic means. Each chair is asked to follow-up coordination of electronic meetings via their respective email reflectors.

The 3GPP2 secretary and staff in conjunction with our Japan counterparts will manage the logistics of the meeting cancellation. I realize that there will be further questions concerning hotel reservations, reimbursements and more. The secretary will make every effort to keep you all apprised of the situation.

I appreciate all of your support during this extraordinary circumstance.

Regards,

Steve Dennett, Chairman 3GPP2 Steering Committee
