

**3RD GENERATION  
PARTNERSHIP  
PROJECT 2  
"3GPP2"**

Dear cdma2000 Technology Workshop Participant:

On behalf of 3GPP2, I want to thank you for your attendance at the cdma2000 Technology Workshop held in Guangzhou, China on 14 June 2012. Your participation, insights, recommendations for new and enhanced capabilities based on market needs and requirements, as well as in depth discussion on many of the workshop topics made this a very successful and productive event.

The attached Summary of the cdma2000 Technology Workshop is being provided for your information. This document is an analysis of the workshop contributions and discussions by the 3GPP2 Steering Committee Workshop Planning AdHoc, with input from the 3GPP2 Technical Specification Groups (TSGs). This analysis identifies issues raised at the workshop and for consideration by 3GPP2. In fact, some issues are already being worked on in 3GPP2, as indicated by blue text on the issue list on slide 11 in the attachment.

The 3GPP2 TSGs, during their upcoming meetings, will consider these issues and any further actions to pursue related to specification development activities. To initiate work in 3GPP2, three (3) 3GPP2 member companies must jointly sponsor a 3GPP2 Work Item (WI), and then contributions from participating companies will drive the work forward.

If there are issues of interest to your company, we strongly urge your direct participation in 3GPP2 to help clarify the requirements and drive the development effort. Your support is important to progressing this work. Please contact 3GPP2 Director, Victoria Mitchell, at [vmitchell@tiaonline.org](mailto:vmitchell@tiaonline.org) for details on 3GPP2 participation and meeting schedules. Your comments are greatly appreciated and will facilitate prompt responsive action on the issues of concern.

If you are interested, a press release about the Workshop can be found on the 3GPP2 website at [http://www.3gpp2.org/Public\\_html/News/20120829\\_Guangzhou\\_Workshop\\_Press\\_Release.pdf](http://www.3gpp2.org/Public_html/News/20120829_Guangzhou_Workshop_Press_Release.pdf). Again, thank you for your participation in the cdma2000 Technology Workshop and making it an outstanding success.

Sincerely,

Cheryl Blum  
3GPP2 SC Chair
