**3GPP2 SC REVIEW AND APPROVAL OF
SHARED WORK/TRANSFER OF WORK ACTIVITIES WITH OMA**

20 OCTOBER 2003

- Work items being considered for shared work and/or transfer of work must be approved on a case-by-case basis. It is recommended that the 15-day SC approval process be adopted.
- The recommendation for a work item to be considered by the SC for shared work and/or transfer of work must include the following for SC consideration:
 - Detailed definition of the scope of work sharing/transfer,
 - Definition of expected outputs by OMA with a requested delivery schedule for each,
 - List of 3GPP2 documents that are recommended for OMA review in support of this effort,
 - Recommendation for approval from the 3GPP2 TSG(s) that would be responsible for the work item.
- 3GPP2 retains the following options:
 - 3GPP2 may define its own requirements and submit them for incorporation into OMA requirements,
 - The 3GPP2 PMT may facilitate 3GPP2 periodic reviews of OMA development projects to identify potential shortcomings or recommend modifications,
 - 3GPP2 always retains the right to manage or develop its workplan, regardless of any potential overlap resulting for shared or transferred of work.
- 3GPP2 companies are encouraged to actively participate in OMA. However, these companies are not authorized to speak for 3GPP2.
