Opening Plenary:
Draft correspondence to TSG-S regarding the PDSIT Stage 1 was distributed for review. Final correspondence to be discussed at the closing.

Draft correspondence to the TSG-S All IP Ad Hoc regarding adding the Architectural Principles to the NAM was distributed for review. Final correspondence to be discussed at the closing.

Robert Ephaim, the first and previous chair of TSG-N was awarded a commemorative clock for his excellent service in support of TSG-N for from Jan. 1999 to Jan. 2001.

WG1:
A Stage 1 for OSA was presented. After considerable discussion the contributor was requested to revise and resubmit after incorporating the comments from the discussion.

WG2:
Output of the PN-4720 Focus Group was reviewed and accepted as baseline. Additional comments from Motorola and Lucent were also incorporated. The document was given V&V status with all participants requested to bring in V&V comments at the next meeting.

A proposal to reword the granularity of reference point 8 to indicate different security levels may be provided for Service Applications inside and outside the WNO network was accepted as modified.

A proposal to modify the Evolution document was accepted as modified. A cover letter was requested for the closing plenary so the modification can be sent to the TSG-S All IP Ad Hoc Evolution Focus Group.

During the Authentication Focus Group it was mentioned that the AHAG has agreed to review the material liaised from TSG-N last month and will respond when it has completed it's study.

The IP Core Network Focus Group agreed to meet via conference call rather than face to face at this meeting due to the number of contributions presented Tuesday.

WG3:
Parts 6xx and 7xx of Rev. E are out for V&V. Assignments were taken to V&V on a per-IS basis. Comments are expected at the July meeting.

WG4:
N.S0025 is in V&V, all participants are requested to bring V&V comments to the July meeting.

Closing Plenary:
Draft correspondence to TSG-S and the TSG-S All IP Ad Hoc distributed at the opening plenary was approved as modified.

Correspondence to the TSG-S All IP Ad Hoc Evolution Focus Group was approved as modified.

Correspondence to TSG-A regarding the Pachet Data Inactivity Timer was approved as modifed.
