9.2 Numbering Administration Issues

The Organizational Partners were reminded that an Ad Hoc group was established at the last OP meeting to review the historical information regarding numbering administration activities and to handle those aspects of discussion that fall within the scope of 3GPP2.

It was further noted that Mr. Hidetoshi Saito of ARIB had volunteered to convene the Ad Hoc group and that a meeting of the Ad Hoc group took place on Sunday, February 24.

Saito-san noted that the Ad Hoc group met on Sunday, February 24 and presented contribution OP-20080226-006 as the output of this group’s discussions.

The report noted several recommendations for consideration. These recommendations are to be provided to TIA in its role as Administrator for consideration, noting that future meetings between the OPs and TIA may be in order.

The Secretary is to convey the recommendations of the OP Numbering Administration Ad Hoc to TIA staff for review and consideration, and is to invite the appropriate TIA parties to future discussions of the Ad Hoc.

ARIB noted that previous recorded OP decisions show that the topic of numbering administration falls outside the scope of 3GPP2. While not seeking any definitive scope changes at this time, ARIB is seeking OP endorsement of numbering administration discussions to facilitate their understanding of the issues. The Organizational Partners had no objection.

The Organizational Partners endorse ongoing discussions regarding numbering administration to further understand issues raised.

ARIB further requested that the 2007 numbering fee increase be deferred until a final resolution on this issue is reached. The Secretary, speaking as TIA numbering administrator, noted that this issue would be referred back to TIA for further consideration. There was no objection to this approach.
The Secretary is to forward ARIB’s request to not raise the cost of numbering administration resources until resolution of the ongoing discussions.

At the last OP meeting a volunteer was being sought to represent 3GPP2 at this conference. No volunteer has stepped forward to date.

The Chair asked if any volunteers were available at this time. The TIA Head of Delegation noted that TIA will be happy to provide a volunteer for this activity to represent 3GPP2’s interests and to provide a presentation to be prepared and approved as needed. The Secretary indicated he would research exactly what is needed and provide the OPs with the necessary information over the coming week.

ACTION 2008/02-05

He noted that he is in contact with the OP Finance Oversight Committee chair on this issue but wanted the Organizational Partners to be aware.
