## FOREWORD

**(This foreword is not part of the Standard.)**

This technical database forms the Software Distribution in support of the Specification for the Enhanced Variable Rate Codec (EVRC), Speech Service Options 3, 68, 70, and 73, a variable-rate two-way speech service option.

This Software Distribution does not directly address the quality or reliability of Service Options 3, 68, 70, and 73, nor does it cover equipment performance or measurement procedures.

1

## NOTICE

2 Each of the companies; Motorola, Lucent, Qualcomm, and Nokia (hereinafter referred to  
3 individually as "Source" or collectively as "Sources") do hereby state:

4 To the extent to which the Source(s) may legally and freely do so, the Source(s), upon  
5 submission of a Contribution, grant(s) a free, irrevocable, non-exclusive, license to the  
6 Third Generation Partnership Project 2 (3GPP2) and its Organizational Partners: ARIB,  
7 CCSA, TIA, TTA, and TTC, under the Source's copyright or copyright license rights in  
8 the Contribution, to, in whole or in part, copy, make derivative works, perform, display  
9 and distribute the Contribution and derivative works thereof consistent with 3GPP2's  
10 and each Organizational Partner's policies and procedures, with the right to (i)  
11 sublicense the foregoing rights consistent with 3GPP2's and each Organizational  
12 Partner's policies and procedures and (ii) copyright and sell, if applicable) in 3GPP2's  
13 name or each Organizational Partner's name any 3GPP2 or transposed Publication even  
14 though this Publication may contain the Contribution or a derivative work thereof. The  
15 Contribution shall disclose any known limitations on the Source's rights to license as  
16 herein provided.

17 When a Contribution is submitted by the Source(s) to assist the formulating groups of  
18 3GPP2 or any of its Organizational Partners, it is proposed to the Committee as a basis  
19 for discussion and is not to be construed as a binding proposal on the Source(s). The  
20 Source(s) specifically reserve(s) the right to amend or modify the material contained in  
21 the Contribution. Nothing contained in the Contribution shall, except as herein  
22 expressly provided, be construed as conferring by implication, estoppel or otherwise,  
23 any license or right under (i) any existing or later issuing patent, whether or not the use  
24 of information in the document necessarily employs an invention of any existing or later  
25 issued patent, (ii) any copyright, (iii) any trademark, or (iv) any other intellectual  
26 property right.

27 With respect to the Software necessary for the practice of any or all Normative portions  
28 of the EVRC Variable Rate Speech Codec as it exists on the date of submittal of this  
29 form, should the EVRC be approved as a Specification or Report by 3GPP2, or as a  
30 transposed Standard by any of the 3GPP2's Organizational Partners, the Source(s)  
31 state(s) that a worldwide license to reproduce, use and distribute the Software, the  
32 license rights to which are held by the Source(s), will be made available to applicants  
33 under terms and conditions that are reasonable and non-discriminatory, which may  
34 include monetary compensation, and only to the extent necessary for the practice of any  
35 or all of the Normative portions of the EVRC or the field of use of practice of the EVRC  
36 Specification, Report, or Standard. The statement contained above is irrevocable and  
37 shall be binding upon the Source(s). In the event the rights of the Source(s) in and to  
38 copyright or copyright license rights subject to such commitment are assigned or  
39 transferred, the Source(s) shall notify the assignee or transferee of the existence of such  
40 commitments.

## REFERENCES

2 The following standard contains provisions, which, through reference in this text,  
3 constitute provisions of this Software Distribution. At the time of publication, the editions  
4 indicated were valid. All standards are subject to revision, and parties to agreements based  
5 on this Software Distribution are encouraged to investigate the possibility of applying the  
6 most recent editions of this Software Distribution and the standard indicated below. ANSI  
7 and TIA maintain registers of currently valid national standards published by them.

11

1 **1 SOFTWARE DISTRIBUTION: ENHANCED VARIABLE RATE**  
2 **CODEC, SERVICE OPTIONS 3, 68, 70, AND 73, SPECIFICATION**

3 **1.1 Scope**

4 This software distribution is in long filename format and will need to be initially  
5 downloaded, and the appropriate portions subsequently transferred to an appropriate  
6 platform for processing, depending on the software distribution contents. If the  
7 distribution is downloaded as zip files from an ftp site, a free 9.2 MB space will be required:  
8 1.95 MB for the zip files and 6.25 MB for the unzipped distribution directory. The  
9 utilization of this software database is described in the parent referenced document [[1](#)].

10

11 **1.2 EVRC Specification Software Distribution**

12 The Software Distribution supporting the referenced Enhanced Variable Rate Codec  
13 Specification [[1](#)] is contained in the zip files accompanying this textual cover  
14 (SoftwareDistribution-v1\_0\_for\_C.S0014-D.zip).
