Foreword

(This foreword is not part of this Standard.)

This document is subject to change following formal approval. Should this document be modified, it will be re-released with a change of release date and an identifying change in version number as follows:

X.S0028-000-Z vy.z

where:

- Z denotes revision [0, A, B, ...]
- 0 is the initial release (0th revision)
- A is the first revision, B the second revision, etc...
- v the letter “v” with no trailing space
- y is the “point release” number
- 0 is used when the document is first created
- 1 number is incremented whenever the document is approved for publication (e.g., 1 is the first approval by the plenary for publication)
- z is an internal edit level
- 0 internal edit level z, always reset to 0 when the document is approved for publication,
- 1 internal edit level is incremented by the entity (e.g., working group) that is developing the document.

This document uses the following conventions:

- “Shall” and “shall not” identify requirements to be followed strictly to conform to this document and from which no deviation is permitted.
- “Should” and “should not” indicate that one of several possibilities is recommended as particularly suitable, without mentioning or excluding others, that a certain course of action is preferred but not necessarily required, or that (in the negative form) a certain possibility or course of action is discouraged but not prohibited.
- “May” and “need not” indicate a course of action permissible within the limits of the document.
- “Can” and “cannot” are used for statements of possibility and capability, whether material, physical or causal.

Scope

This document is part of a multi-part document consisting of multiple parts that together describes cdma2000^{®1} Wireless Local Area Network Interworking.

¹ cdma2000[®] is the trademark for the technical nomenclature for certain specifications and standards of the Organizational Partners (OPs) of 3GPP2. Geographically (and as of the date of publication), cdma2000[®] is a registered trademark of the Telecommunications Industry Association (TIA-USA) in the United States.

1 Introduction

This document is a multi-part document that describes cdma2000 Wireless Local Area Network Interworking. A multi-part document consists of a part 000, and at least one other part. Each part is subject to revision independent of all other parts. This part, part 000, provides a list of parts that comprise a particular revision level.

2 List of Parts

The parts that comprise the initial release of this document are as follows:

	Title
	cdma2000 Packet Data Services; Wireless Local Area Network (WLAN) Interworking; List of Parts Revision A
	cdma2000 Packet Data Services; Wireless Local Area Network (WLAN) Interworking; Access to Internet
	cdma2000 Packet Data Services; Wireless Local Area Network (WLAN) Interworking; Access to Operator Services and Mobility Revision A
